

Are you a man between 30 and 80 years old who has Type 2 Diabetes?

If so, you may qualify for a clinical research study to see if an investigational medication will help to control blood sugar levels.

This study is open to diabetic men who:

- ❖ have less-than-optimal blood-sugar control
- ❖ are taking oral diabetes medication
- ❖ are not taking insulin

Other inclusion requirements also apply. Please call for details.

Qualified participants will receive study related exams, lab work, and investigational medication at no cost. Participants will also be reimbursed for their time and for travel related to the study.

If you are interested in learning more about this research study, please contact:
